USCINCPAC INSTRUCTION C5440.2G

Subj: USCINCPAC JOINT RECONNAISSANCE CENTER; FUNCTIONS ASSIGNED (U)

Encl: (1) J2/J3 Reconnaissance Interface Diagram (U)

1. (U) Purpose. To provide guidance for the staff supervision and control of aretime aerial reconnaissance in the U.S. Pacific Command (USPACOM).

2. (U) Cancellation. USCINCPAC Instruction C5440.2F.

3. (C)

4. (C)

a. (U) Imagery Intelligence (IMINT) Branch (J231) provides staff management relative to the intelligence aspects of imagery reconnaissance collection, processing, exploitation, dissemination, and sensor systems operating within the USPACOM and the validation of specific imagery collection and exploitation requirements. Duties as they pertain to aerial reconnaissance include:

(1) (U) Serves as the principal advisor for the USCINCPAC JRC on aerial imagery reconnaissance collection requirements and sensor systems.

CLASSIFIED BY: Director for Operations, HQ USCINCPAC

(2) (U) Manages recurring USPACOM imagery collection and exploitation requirements through the Imagery Reconnaissance Objectives Program (IROP), to include USPACOM submission to Defense Intelligence Agency (DIA) for validation and collection action, as appropriate.

(3) (U) Coordinates the USPACOM quarterly review of the IROP.

(4) (U) Validates USPACOM high-priority imagery collection by national platforms.

(5) (U) Provides management direction and USCINCPAC staff cognizance of the Pacific Imagery Processing and Interpretation Center (PIC), as well as management of the imagery collection-related aspects of the Ocean Surveillance Information Systems (OSIS).

(6) (U) Maintains management direction over imagery collection programs in USPACOM to include the processing, exploitation and distribution of aerial imagery reconnaissance products.

(7) (U) Monitors satisfaction of USPACOM aerial imagery collection requirements.

(8) (U) Chairs the USPACOM Aerial Reconnaissance Review Committee (PARRC).

(9) (U) Provides IMINT collection management expertise at the monthly USPACOM PARPRO Requirements and Scheduling Conference and Western Pacific (WESTPAC) Peacetime Aerial Reconnaissance Programs (PARPRO) review trips.

b. (U) Signal Intelligence (SIGINT) Branch (J232) provides staff management relative to signals intelligence activities and collection requirements within the USPACOM. Duties as they pertain to aerial reconnaissance include:

(1) (U) Performs the function of theater collection manager for tasking and reporting by all theater SIGINT collection assets.

(2) (U) Receives, processes, researches and approves all USPACOM SIGINT collection requirements originated by the Intelligence Center, Pacific (IPAC), service components and sub-unified commands in accordance with DIA and National Security Agency (NSA) directives.

(3) (U) Develops and implements procedures to assist in the overall management of SIGINT collection in the USPACOM to ensure satisfaction of validated requirements within the capabilities of the available SIGINT resources.

(4) (U) Recommends PARPRO schedule adjustments to accommodate changes in collection requirements and resource availability.

(5) (U) Maintains cognizance of and applies knowledge of aerial SIGINT resource composition, disposition, capability and SIGINT production concepts and procedures to include collection analysis, processing, reporting and dissemination.

(6) (U) Initiates studies and evaluations on adequacy of aerial SIGINT support, levels of collection required, and general policy governing relationships of USCINCPAC with National Security Agency, Central Security Service (NSA/CSS).

(7) (C)

(8) (U) Provides SIGINT expertise in support of daily PARPRO and non-PARPRO reconnaissance operations and correlates aerial SIGINT collection requirements with platform collection capabilities.

(9) (U) Maintains cognizance of various special military reconnaissance projects conducted throughout the USPACOM as well as other sensor systems (e.g., RADINT, ACINT, and NUCINT).

(10) (U) Chairs the USPACOM SIGINT Requirements Committee (SRC).

(11) (U) Reviews USPACOM Electronic Intelligence (ELINT) operations, policy matters and provides support to the electronic warfare staff element.

(12) (C)

(13) (U) Monitors PONY EXPRESS operations within USPACOM for the Intelligence Directorate.

(14) (U) Provides SIGINT collection management expertise at the monthly USPACOM PARPRO Requirements and Scheduling Conference and WESTPAC PARPRO review trips.

(1) (U) As Chief of the Reconnaissance Branch, responsible for the JRC.

(2) (U) Schedules, coordinates and manages the USPACOM PARPRO.

(3) (U) Coordinates USPACOM PARPRO/PONY EXPRESS/Space Reconnaissance plans and operations with those of other U.S. and allied commands.

(4) (U) Develops and implements plans, policy guidance, and other related information on all PARPRO/PONY EXPRESS/Space Reconnaissance operations in USPACOM.

(5) (U) Maintains supervision of, and provides incident reporting on, all peacetime reconnaissance and certain sensitive operations under USCINCPAC operational control.

(6) (U) Chairs the monthly Requirements and Scheduling Conference for USPACOM PARPRO missions/operations.

(7) (U) Determines when the movement of USPACOM reconnaissance platforms is required to avert an international incident, and ensures that appropriate action is taken.

(8) (U) Advises on the implementation and effectiveness of restrictions and controls intended to minimize the risk of political and military incidents.

(9) (U) Coordinates with other USCINCPAC branches and agencies to effect special support (e.g., fighter, Electronic Countermeasures (ECM) and advisory warning) when estimate of threat to mission aircraft or other factors indicate such support is appropriate.

(10) (U) Reports immediately to the Joint Chiefs of Staff any unusual or hostile reactions to U.S. peacetime reconnaissance operations and violations of restrictions established by the Joint Chiefs of Staff, to include unintentional U.S. violations of foreign airspace or territorial waters.

d. (U) JRC Watch Officers (assigned to J314) are responsible for monitoring aerial reconnaissance and surveillance in USPACOM on a 24-hour basis to ensure operations are carried out safely and in accordance with applicable JCS, USCINCPAC and 5AF directives. Duties for JRC Watch include:

(i) (U) Examines all message traffic to ensure that reconnaissance within USPACOM is in accordance with applicable directives.

(2) (U) Monitors PARPRO missions and PONY EXPRESS operations in the USPACOM.

(3) (U) Ensures notification to JCS/JRC and USCINCPAC Staff officers in event of incidents involving USPACOM PARPRO aircraft and PONY EXPRESS assets.

(4) (U) Provides interface with command advisory functions within the USPACOM.

(5) (U) Provides data regarding PARPRO/PONY EXPRESS operations to meet daily command center brief and special briefs as necessary.

5. (U) Coordination. Collection Management (J23) interfaces with Current Operations (J31) by validating intelligence requirements, coordinating scheduling, and verifying military risks and potential intelligence gains. J3 assigns subordinate commanders with responsibility for satisfaction of specific requirements in accordance with respective capabilities and areas of responsibilities. Four times a year USCINCPAC combines the monthly PARPRO Requirements and Scheduling Conference with a WESTPAC PARPRO Review Trip to all USPACOM PARPRO units/assets. The Review Trip team consists of USCINCPAC representatives from J314, J23, and C3S, as well as representatives from CINCPACFLT, CINCPACAF, HQ 5AF/DOR, and NCPAC. A Colonel-Captain/Brigadier General-Rear Admiral from J3 or J2 acts as team chief during at least one of the WESTPAC Review Trips each year.

6. (U) Command Relations. Basic responsibility and functions are delineated in Headquarters, Commander in Chief, U.S. Pacific Command Organization and Function Manual (USCINCPACINST 5400.6K). Staff tasking and reporting is in accordance with the current USCINCPAC Staff Organization.

WILLIAM H. SCHNEIDER
